songs to play on a xylophone: *70 Simple Songs for the 8-Note Tongue Drum. Without Musical Notes* Helen Winter, We call this series "I don't read music" since we are targeting beginners of all ages: children, teens, parents, grandparents. Folk music traditionally is not learned from sheet music or notes. Instead, it is learned by repetition and from being passed from generation to generation. We believe in this method of teaching, which is easier and more enjoyable. All 70 songs in this book have been written without using the classic music score system, because it is for absolute beginner who can not read sheet music. This book is aimed for those who want to add popular melodies to their experimentation. We use circles with numbers because most modern tongue drums have numbers engraved or painted on their keys. We do not show the note duration. You can experiment with a duration on your own. We recommend finding each of these songs on YouTube and listening to the rhythm before beginning to play. Our sheet music is only a guide. The most important thing is to listen and repeat the recordings. All songs from this book are possible to play in one octave. These songs are suitable for a diatonic 8-note tongue drum, which should have numbers 1, 2, 3, 4, 5, 6, 7, and 1 of the next octave. Please note: if you have a model of the tongue

drum with 5 tongues, or if some keys from the octave are missing, you will not be able to play all of the songs in this book. The songbook includes very simple, popular children's and folk songs, but even well-known children's songs played on the tong drum will create an unusual magical sound.

Song Book was created to give those brave souls a place to begin. It's Easy! All one needs to do is match the color blocks or letters in these musical song patterns to an instrument, and beautiful music can be made. This book works well with xylophones, glockenspiels, hand bells and even pianos. Any eight-note instrument in a C to C scale can be used with this book. Sometimes instruments vary in their color scheme, but most are labeled with the letter of the notes. All of this book's song patterns are color-coded AND letter-coded, so as long as the instrument is marked with the letter of the notes, you can play along. Some people use this book to help children who cannot yet read music play some tunes on the piano. They take pieces of easily removable white painter's tape, draw colored dots on the tape that match the colors in the song patterns, and then place these dotted tape pieces on the piano keys. A Place to Begin! Many parents and classroom teachers feel unequipped to teach the next generation about music because they had little opportunity to learn themselves. Sometimes, older adults who missed the chance to play an instrument when they were younger are determined to begin. Music therapists are often looking for tools to bring music to their patients. Children delight in banging the keys of a percussion instrument but need some help to know what to do next. Yet, where does one who has not yet learned to read musical notation begin? Most people can match colors or letters, which makes color and letter coded music song patterns a good place to start. Help for Parents and Teachers! To help school teachers, parents and other community instructors start teaching music with Glockenspiel Xylophones, there are some classroom ideas at the end of this book. Rounds and duets are included so that groups can make music together! Benefits! It is well documented that learning to play a musical instrument stimulates multiple areas of the brain and increases the brain's cognitive ability, but it also enhances eye-hand coordination and balance. It can increase math ability and improve reading and comprehension skills as well as listening ability. Playing together in a group boosts leadership and team work skills and teaches discipline. Music fosters self-expression, creates a sense of achievement, relieves stress, and promotes happiness. For Musicians of All Ages! Starting a new activity, no matter what your age, takes courage, resources and support. These song patterns are provided to make it a little easier to take that first musical step! songs to play on a xylophone: 30 Easy Play Songs every parent/grandparent can play for kids even if they've never played music before Helen Winter, 30 Songs you can play for your baby immediately on any instrument you may have at home without any musical background. Hi. Now you are parents. Or grandparents. The second is much easier but does not free you from the duty of singing lullabies and other funny kids' songs to your little ones. Do you feel forced to sing them? It's not easy, is it? Especially if you're tone-deaf. Did your schoolmates study violin while you were playing hooky from music class? Now with the kids, you're stuck and everyone expects you to be a lullaby singer. Well, we have a solution for you. If your only singing has been in the shower, let us help you become a real musician. And you can do it with any instrument. Even a toy piano, if it is tuned. If you are a musician, this book is not for you. You can go play your instrument in an orchestra. Kids like simple music. We offer you a guaranteed time-tested set of cool kids' songs. These are famous kids' songs (which you'll recognize) and also some musical nursery rhymes threw in. What do you need for your musical success? Equipment for starters. Your instrument can even be jars with water. But for most songs, it'll be better if they are somewhat tuned. It could be any key instrument like a piano, melodica, kalimba, marimba, synthesizer, xylophone, glockenspiel, or a color bell set with 8 bells or more. Drums, tambourines, castanets, and music rattles are also welcome. The main argument for the idea of not being able to play in a band with your child immediately is I CANNOT READ MUSIC SHEET. Don't worry! You don't have to! We made our pictures large and as simple as possible. You'll easily play by circles. No musical staff or notes. Your listeners are not very critical and won't know the difference. Kids are the best listeners in the world. The sheet music book has 2 parts: Part 1. No musical staff or notes. Simply follow the circles with letters. To show the rhythm, we grouped the circles together. Every song in this section was adapted for the newbie - you - just 8 notes (one octave). Part 2. Here you'll see traditional musical notes and staff added. But don't worry - the helpful letters are still there. Important! You will be able to begin to play right away if the keys of your instrument have letter notations on the keys (like kalimba or xylophone). For other instruments, you just need to get and apply stickers with letter-notations. Just 8 stickers will

be enough. Write the notes with a marker - A B C D E F G and C8. Easy play songs were adapted especially for beginners. Attention: Songs have been transposed for a DIATONIC range. Some melodies might be changed and simplified. If you have flat keys on your instrument, please use the classic music score for the piano. Songs: 1. Hot Cross Buns 2. Are you sleeping? 3. Mary had a Little Lamb 4. The wheels on the Bus 5. Twinkle, Twinkle Little Star 6. Old MacDonald had a farm 7. Do you know the Muffin Man? 8. London Bridge is Falling Down 9. Jingle Bells 10. We wish you a Merry Christmas 11. Brahms's Lullaby 12. Ode to Joy 13. Happy Birthday 14. Le Cucaracha 15. Oh! Susannah 16. Itsy Bitsy Spider 17. The First Noel 18. Yankee Doodle 19. songs to play on a xylophone: **Music and the Child** Natalie Sarrazin, 2016-06-14 Children are inherently musical. They respond to music and learn through music. Music expresses children's identity and heritage, teaches them to belong to a culture, and develops their cognitive well-being and inner self worth. As professional instructors, childcare workers, or students looking forward to a career working with children, we should continuously search for ways to tap into children's natural reservoir of enthusiasm for singing, moving and experimenting with instruments. But how, you might ask? What music is appropriate for the children I'm working with? How can music help inspire a well-rounded child? How do I reach and teach children musically? Most importantly perhaps, how can I incorporate music into a curriculum that marginalizes the arts? This book explores a holistic, artistic, and integrated approach to understanding the developmental connections between music and children. This book guides professionals to work through music, harnessing the processes that underlie music learning, and outlining developmentally appropriate methods to understand the role of music in children's lives through play, games, creativity, and movement. Additionally, the book explores ways of applying music-making to benefit the whole child, i.e., socially, emotionally, physically, cognitively, and linguistically.
